

If this gift page belongs to you, then there is a pencil icon to edit the information. The date above the pencil icon is the date the page was last updated, so visitors know how accurate the information is.

If the gift page DOES NOT belong to you, then there are star icons. A filled in star means that someone has gotten the gift for the person. An empty star means they have not. You can star it just by tapping on the star.

Editing just makes the fields editable
